### EXECUTIVE SUMMARY

Graduate Architect with hands-on experience gained through academic projects, design competitions, freelance work, and an architectural internship. Experienced in concept design, space planning, architectural documentation, 3D modeling, visualization, and collaborative project development across residential, commercial, hospitality, landscape, and urban design projects. Proficient in Revit, AutoCAD, Rhino, SketchUp, Adobe Creative Suite, and visualization tools, with strong design communication, problem-solving, and teamwork skills. Passionate about creating practical, user-centric, and sustainable design solutions.

### SOFTWARE SKILLS

AutoCAD | Revit | Sketch Up | Rhino | Grasshopper | Shaper3d | Adobe Photoshop | Adobe Illustrator | Enscape | Twinmotion | D5 | Affinity | MS Office | PowerPoint | Canva

### DESIGN & SOFT SKILLS

Concept design | Space planning | Design development | Sustainable design | 3D Modeling | Visualization | Client presentation support | Team coordination | Leadership | Visual Communication | Attention to detail | Adaptability | Problem solving | Time management

### INTERNSHIP EXPERIENCE

Architect Hafeez Contractor, Mumbai, India

Jun'25-Nov'25

- Contributed to 14+ live projects across residential, commercial, hospitality, landscape, and urban developments.
- Assisting site analysis, case studies, urban context analysis, space planning, zoning, and design development.
- Prepared architectural drawings, plans, sections, 3D models, visualizations, and presentation materials.
- Supported client presentations and meetings while coordinating with architectural, structural, MEP, and landscape teams.
- Utilized AutoCAD, SketchUp, D5 Render, Adobe Photoshop, and Microsoft Office in a professional architectural practice while delivering multiple concurrent projects within strict deadlines.

### ACADEMIC PROJECTS

Technopark | Thiruvananthapuram, Kerala, India

Jan'26-May'26

- Master planned a mixed-use urban development integrating commercial, residential, and public spaces.
- Designed a 40-storey office tower integrating efficient core planning and workplace strategies.
- Applied sustainable urban design and landscape planning for climate-responsive development.

Skyline-Hub | Thane, Maharashtra, India

Jan'25-May'25

- Developed a mixed-use master plan featuring a 350 m landmark watchtower and vibrant public spaces.
- Applied AI-assisted design tools and parametric workflows to refine design concepts.
- Created biophilic landscapes, skywalks, and climate-responsive public spaces.

Tourist-Hub | Katra, Jammu, India

Jul'24-Dec'24

- Conducted urban analysis and master planning using Kevin Lynch's framework.
- Designed a Tourist Information Centre with hospitality and commercial functions.
- Enhanced pedestrian connectivity, wayfinding, and context-responsive public spaces.

### COMPETITION PROJECTS

GRIHA Trophy – Resort | Ghodegaon, Pune, India

Feb'25

- Designed an eco-resort master plan inspired by vernacular Wada architecture.
- Integrated passive design, low-carbon materials, and water-sensitive planning.
- Developed bioclimatic landscapes and sustainable hospitality spaces.

120-Hours | Oslo, Norway

Mar'25

- Conceptualized a Mobius loop-inspired architectural pavilion translating identity into a landmark public space.
- Developed contextual site planning and high-quality 3D visualizations.
- Applied user-centric design principles to create an engaging and functional public environment.
